

AAA TECHNOLOGY & SPECIALTIES CO., INC.

FIG. 454
OVERSIZED ROUND WASHER

APPLICATION: Oversized Round Washers are often used as spacers and may also be used to bridge oversized holes when attaching hanger rods or bolts to structural members. They provide a greater bearing surface than regular flat round washers, but not as much load bearing capacity as square washers.

CONSTRUCTION: Oversized Round Washers are made of SA-36 mild low carbon steel and are available for 1/4 inch thru 1/2 inch diameter bolts or hanger rods.

FINISHES AVAILABLE: Electro-Plated.

ORDERING: Specify figure number, size of bolt or hanger rod, name.

EXAMPLE: Fig. 454, 1/2", Oversized Round Washer.

ROD SIZE	I.D.	O.D.	APPROX. WT./100
1/4	5/16	1 - 1/2	3.3
3/8	7/16	1 - 1/2	3.0
1/2	9/16	2	2.8
